Re: European Union RoHS Directives

All OMNI Customers,

OMNI Flow Computers, Inc. is committed to demonstrating the highest standard of global and environmental management. OMNI Flow Computers, Inc. is required to comply with the RoHS (2011/65/EU) directives, the conformity assessment requirements and the CE-marking requirements for all our flow computers and replacement products (industrial monitoring and prior to the mandatory date of July 22, 2017, as set out in the RoHS Directive (2011/65/EU). As of July 1, all flow computers and spare parts sent to customers outside the United States will be in full compliance with the RoHS Directive (2011/65/EU).

OMNI Flow Computers, Inc.'s dedication to our customers is demonstrated by our compliance efforts as they apply to the following European Directives:

European Directives 2011/65/EU – *The Restriction of Hazardous Substances (RoHS)* restricts the use of six hazardous substances in electrical and electronic equipment. OMNI Flow Computers, Inc. products currently required to comply with RoHS are category 3 products (IT and Telecommunications Equipment) such as industrial computers, monitors, and accessories. OMNI Flow Computers, Inc. modes 3000/6000 and 4000/7000 product series are fully compliant with the material restrictions, conformity assessment and CE-marking requirements of the RoHS Directive (2011/65/EU).

All inquiries regarding OMNI Flow Computers, Inc. compliance should be directed to [quality@omniflow.com](mailto:quality@omniflow.com).

Sincerely,

A handwritten signature in blue ink, appearing to read "Kenia Lyons", is written over a horizontal line.
